

# Chongqing will spend 200 million yuan in 2016 to improve the cold chain logistics chain

## Detail Introduction :

According to the news from the Chongqing Municipal Commission of Commerce, the development of cold chain logistics in Chongqing has received 200 million yuan of central funding support, focusing on supporting the construction of cold chain logistics informatization systems, promoting the application of cold chain logistics standards, consolidating infrastructure construction, and strengthening skills training.

According to the relevant person in charge of the Municipal Commission of Commerce, Chongqing will use project funds to increase the cold chain circulation rate of refrigerated and frozen agricultural products and food by 30% in 2 years, increase the cold chain transportation rate by 10%, and reduce the loss rate of circulation links by 20%.
