Detail Introduction :

Payment Type:L/C,T/T,D/P

Incoterm:FOB

Min. Order:2000 Kilogram

Transportation:Ocean

Supply Ability & Additional Informa...

Packaging: 20kg/double plastic bags inside and carton outside or packing at buyer`s option
Productivity: 1000T/year
Transportation: Ocean
Place of Origin: CHINA
Supply Ability: 100tons every month
Certificate: BRC grade A/ Kosher/ Halal/ ISO22000:2005/ISO9001:2015
HS Code: 071290

Payment Type: L/C,T/T,D/P
Incoterm: FOB

Packaging & Delivery

Selling Units:

Kilogram

Package-Type:

20kg/double plastic bags inside and carton outside or packing at buyer`s option

Bell pepper has a variety of colors, such as red, yellow, and green. It is widely used in side dishes.

Bell pepper is rich in vitamin C, radish, vitamin B6, vitamin E, and folic acid. The redder the pepper, the higher the nutritional value. Eating them raw is the best way to capture all the nutrients.

Dehydration gives the red bell peppers a longer shelf life while retaining most nutrients. After rehydration, the peppers are fresh as ever. The bright color and sweet flavor make them perfect for salads and other cold dishes. When cooked, the peppers become luscious and roast up beautifully.

Microbial property (According to different grades)

Total plate count: <300,000cfu/g

Mould/Yeast: <500cfu/g

Coliform: <500cfu/g

E.coli: < 3 /g Max

Salmonella?Negative in 375 gms.

Moisture: 10% max
