## Detail Introduction :

Our frozen grapefruit juice 100% is made of fruit picked at optimal ripeness to create a strong aromatic juice, the closest possible to the fresh fruit taste.

Thanks to our stringent selection and our state-of-the-art production process, we are able to offer you a rich grapefruit juice revealing all its aromas without the pronounced bitterness that some other juices can have.

Frozen grapefruit juice 100%: quality guaranteed

The grapefruits selected for our frozen 100% juice are picked at optimal ripeness, the moment when they are the sweetest and the most colorful, to concentrate all the flavors to obtain a powerful purée with strong aromas.

It is de-aerated in order to eliminate any risk of micro-oxidation and is heat treated by a special, ultra-rapid ohmic heating process, which contributes to preserving all the organoleptic qualities of the fresh fruit (flavor, color, texture).

100% frozen grapefruit juice for all food and beverage professionals

Frozen grapefruit juice offers complete liberty of creation to all chefs worldwide, allowing them to adjust the sugar content of their recipes as they please.

The frozen grapefruit juice 100% can be used in both sweet (pastries, ice-creams, sorbets, chocolates, etc.) and savory recipes.

It can also be used in the beverage industry to create delicious cocktails, beers, sodas, and many more!

What happens if you freeze grapefruit?

Can You Freeze Whole Grapefruit? Although possible, freezing whole grapefruit is not something

---

we'd advise. The white pith will become more bitter, and defrosting the grapefruit can take a while. How long does grapefruit last in the freezer?

about 10 to 12 months

Properly stored, it will maintain the best quality for about 10 to 12 months but will remain safe beyond that time. The freezer time shown is for best quality only - grapefruit that has been kept constantly frozen at 0° F will keep safe indefinitely.

How do you freeze fresh grapefruit?

1. How to Freeze Grapefruit

2. Prepare. Remove peel and membrane.

Cut. Following the curve, cut away the pith and peel around the citrus.

3. Place. Collect fruit in the bowl, drain, and place into a Freezer Zipper bag.

4. Freeze. Seal and remove as much air as possible from bags.

What can I do with frozen grapefruit?

Frozen grapefruit can be eaten right out of the freezer, tossed in water for a fruit ice cube, used in smoothies, or thawed and eaten later. (The texture might change just a little bit after thawing.)
