Frozen Grapes

Specifications :

Price	Contact us
Place of Origin	China
Min.Order Quantity	100
Payment Terms	T/T,L/C,D/P
Supply Ability	10000
Delivery Detail	3days-7days

Detail Introduction :

Product Detail
Colour: Light green, green
Variety? Campbell
Size:?
1.IQF :10-15mm
2.BQF: natural sizes (broken:below 10%)
Packing:1x10kg/carton, 2x10kg/carton, 1x20kgs/carton
Season: August
Spread Shipments: As per the clients and contracts.
Successfully Exported Markets:S.Korea, Japan, etc
Certificates: ISO, HACCP, BRC certificates.
Lead Time: About two weeks.
Does freezing grapes ruin them?
Eat as a snack right from the freezer. These grapes can be eaten frozen or thawed for a few minutes. Frozen grapes can replace fresh grapes in every recipe as they retain their intense color and flavor and hold their shape when thawed. When using frozen grapes for preserves, thaw in the refrigerator just until crushable.
Are grapes good after being frozen?
Get the most from your favorite summer produce with the help of your freezer. Once frozen, grapes, mangoes, and bananas last for up to 12 months, which means you can enjoy summer fruit right into winter.
Is it safe to eat frozen grapes?
The best way to thaw frozen grapes is to transfer them from the freezer to the fridge the night before you plan to use them. A word of caution, though: Though grapes that have been frozen and thawed are safe to eat, they probably won't taste quite as good as fresh ones.
