Can I store guava in the freezer?

Guavas can be frozen whole and stored for up to a year. Cut guava, peeled, also freezes well. To prolong storage, cover a cut, ripe guava with a simple syrup, and store it in an airtight container. ... Frozen and covered in syrup, the cut guava can also keep for up to a year in the freezer.

How long can you freeze guava?

Use the guava within one year of freezing.

While guava can last in the freezer for long periods of time, the taste of the fruit will deteriorate after a year. When you're ready to use it, place the guava in the refrigerator for 2-3 hours to thaw before taking it out of the container.

How do you eat frozen guava?

Feel free to simply rinse the guava off and dive in, eating the rind and the seeds. In fact, the rind of guava has more vitamin C than an entire orange. If you'd like to cut the guava, place it on a cutting board and halve it. Then slice it into wedges as you would an apple.
