Delivery Detail	3days-7days

Detail Introduction :

Plum is a kind of sweet and sour fruit. The large amount of fruit acid contained in it is the main component of its digestive stimulating ability. These ingredients can help our gastrointestinal peristalsis to accelerate, thereby better digesting food.

Description: Frozen half plums

Season: All around the year

Certificates: HACCP/ISO/KOSHER/FDA/ECO CERT/BRC

Style:IQF,Frozen

Shape: Special Shape

Size:Diced/Slices

Self life:24months

Packing: We could pack per your request

Origin: Fujian

Successfully Exported countries: USA, Canada, Europe, Israel, and Etcetera

How long are frozen plums good for?

Your frozen plums will be good for up to six months, providing a much-welcome treat come wintertime. The sliced freezing method is great for storing frozen plums for an extended period of time, but one of our favorite summer hacks is freezing our plums whole.

Can I eat frozen plums?

Yes, you can eat frozen fruit without defrosting it. These are nice eaten as they are, straight from the freezer if you like. Using frozen fruit in a blender for smoothies is good, as is using it for blending into ice cream recipes.

How do you thaw frozen plums?

To thaw and use frozen plums, remove the bag from the freezer and thaw in the fridge for several hours or overnight. Plums will be more watery after being frozen, so you may want to drain off the excess water or adjust the liquid in your recipe to account for it.
