How long can frozen pomegranate last?
How long do pomegranates last in the freezer? Properly stored, they will maintain the best quality for about 10 to 12 months but will remain safe beyond that time. The freezer time shown is for best quality only - pomegranates that have been kept constantly frozen at 0°F will keep safe indefinitely.
Is frozen pomegranate as good as fresh?
Pomegranate seeds have an incredibly bright and juicy flavor when they're perfectly fresh, and freezing them helps extend this flavor, but it can't perform miracles. ... Fresh pomegranate seeds and/or thawed from frozen pomegranate seeds will keep in your fridge, well-sealed, for about a week.

Are pomegranate seeds good frozen?
The seeds don't retain quality for nearly as long, so freezing them is definitely on the table. ... The only thing that freezing changes in pomegranate seeds is their texture. Fresh arils are quite firm, while defrosted ones are a bit mushier.
