Inner package: 10kg/bag, 5kg\*2bag, 2.5kg\*4,1kg\*10bag

(As per the clients' requirements.)

Container loading: 20ft reefer container: 10-12 MT

40ft reefer container: 18-25 MT

Certificate:ISO,HACCP,BRC,KOSHER,Global GAP,HALAL certificates

Supplying period:All year round

Transporting and storing temperature: -18°C

Minimum Order Quantity:1 x 20' FCL

Payment Term:30% T/T deposit, 70% balance against seeing the copy of the B/L.

Lead Time: Within 7-15 days after receipt of 30% T/T deposit.

Are frozen cherries safe to eat?

Properly stored, frozen cherries will maintain the best quality for about 12 months in the freezer, although they will usually remain safe to eat after that.

Can you thaw and eat frozen cherries?

Then take and seal them in zip-lock bags and place them back in the freezer. You can pull them out at any time to eat them. We've found it best to let them thaw for a few minutes before trying to eat them. If you have small children, it is a good idea to pit the cherries first.

How long do frozen cherries keep?

Six months

Cherries will keep in the freezer for six months or up to a year in a deep freezer. I froze approximately 54 cherries, and that yielded one quart-size bag of frozen cherries—step 7: Place cherries back in the freezer.
