

Gansu Tianshui 19 tons of quick-frozen vegetables exported to Russia for the first time

Detail Introduction :

On January 6, the Gansu Inspection and Quarantine Bureau reported that recently, 19 tons of quick-frozen vegetables produced by Tianshui Wushan Ruideyuan Food Processing Factory were successfully exported to Russia, realizing the first export of Tianshui quick-frozen vegetables. This is another achievement achieved by the Tianshui Inspection and Quarantine Bureau in promoting the export of food and agricultural products. In addition, Tianshui walnut kernels were exported to the UAE after a lapse of 20 years.

It is understood that the vegetable industry is the pillar industry of Wushan County, Tianshui City. With the expansion of the planting area in recent years, it is difficult for high-quality vegetables to achieve high yield and high price. Tianshui Inspection and Quarantine Bureau learned from the investigation that the company has the intention to develop quick-frozen vegetables to open up foreign markets, The HACCP certification result of the enterprise is directly accepted, and the record of the export food production enterprise is cleared out.

Tianshui Inspection and Quarantine Bureau went to the site for many times to guide enterprises to improve the quality management system, carry out the filing of export vegetable planting bases, help enterprises to successfully sign export contracts through foreign inspections, and adopt the fast inspection and customs clearance mode speeds up the inspection and release of goods and effectively reduces the export cost.
